KNOX PEACE RESOLUTION GIVEN RIGHT OF WAY

START DEBATE IN EFFORT TO PASS MEASURE

Hope To Push Bill Through
By End Of Next Week.

SEE SNAGS AHEAD
Doubt Expressed That
Measure Will Be Delayed.

Washington, April 26.—The Knox peace resolution is to be made today the "unfinished business" of the senate. Republican leaders planning to thereby give it precedence over all other pending legislation until it is disposed of finally.

Senator Lafollette, Republican of Wisconsin, resumed his discussion of the Irish question when the senate reconvened at noon. When he had concluded, Senator Lodge of Massachusetts, the Republican leader intended to call up the Knox measure for debate. How long discussion of it will last is problematical, although Republican leaders hope, to have it passed by the senate before the end of next week.

There are both Republican and Democratic senators who doubt, however, if it can be disposed of so quickly. A number of senators on both sides have signified their purpose to discuss it and some of them regard it as likely to open up a wide range of subjects involving the president's foreign policy.

Pending the return of Senator Hitchcock of Nebraska, ranking Democratic member of the senate foreign relations committee, Senator Underwood, Alabama, minority leader, and other leading Democratic senators, are withholding their program for concerted Democratic action on the resolution.

Senator Kellogg, Republican, Minnesota, is seeking to have his bill to authorize the president to regulate cable landings on American shores, sandwiched in between possible lapses in the Senate on the Knox measure.

Senator Borah, Republican, Idaho, has decided to hold the question of free tolls for American vessels using the Panama canal in abeyance until the Knox resolution is passed.

**LOCAL WOMEN ARE
GUESTS AT WHITE
HOUSE AT A TEA**

Mrs. William Magee Wilson of this city, state regent of the Daughters of the American Revolution, and chairman of the Ohio D. A. R. delegates to the Continental Congress at Washington, and Mrs. William H. McGehee were guests at the tea given at the White House by Mrs. Warren G. Harding, wife of the president, for the delegates from Ohio. Mrs. Pomerene and Mrs. Willis, wives of the Ohio Senators, presided at the table with Mrs. Harlan, secretary to Mrs. Harding.

The delegates from Ohio were presented by Mrs. Wilson at a reception given by President and Mrs. Harding, which followed the tea. The Ohio delegation was among the largest at the D. A. R. congress, consisting of 60 delegates.

**HOUSE TABLES BILL TO
LICENSE FISHERMEN**

Columbus, April 26.—By unanimous vote the house adopted the Kirk resolution accepting an invitation to the state legislature to hold its annual reunion this summer at Put In Bay. The resolution goes to the senate. A joint committee is to fix the date for the reunion.

Senator Dewees, Miami county, offered a resolution proposing that an amendment to the state constitution be adopted at the November election changing the workmen's compensation section so as to prohibit employees from bringing suits against employers who have complied with all lawfully requirements of the state industrial commission. The proposed amendment seeks to remove the "wilful act" phrase from the state constitution.

When the senate sent a message to the house stating that the senate had received from its request that the house concur in senate amendments to the Emery bill providing for the licensing of fishermen the house tabled both the bill and the message, on motion of Rep. Gorrell Carroll county. Unless it is revived, the bill is dead.

The senate will be asked to concur in the action of the house which adopted the Eddington resolution providing for the removal of the log cabin in which President Grant was born from the state fair grounds here to the Grant homestead, Point Pleasant, Clermont county.

GUARANTEE FORTY WEEKS OF WORKING

Cleveland, O., April 26.—A guarantee of forty weeks' work each year to all regular employees is one of the features of the arbitral award made in the wage contest between the Cleveland Ladies' Garment Manufacturers and their employees.

Manufacturers are required to establish a fund from which regular employees temporarily out of work shall be paid two thirds of their weekly wage and given one week's vacation each year with full pay.

The award was at once accepted by the garment manufacturers and late last night, after a stormy session, the garment workers union, also ordered that the new scale be signed.

PRECEDENT SET BY CLEVELAND GARMENT FIRMS

Promise Of Work Through-out Year Is New Thing.

PAY IS REDUCED
Arbitral Award Accepted By Employers—Workers To Follow Suit.

Cleveland, O., April 26.—Haunting fears of workless days no longer face members of the Cleveland Garment Workers union employed by the Cleveland Ladies' Garment Manufacturers. Under the terms of an arbitral award, just made public, each regular employee is guaranteed a minimum of forty weeks work each year.

The award was at once accepted by the garment manufacturers and its acceptance by the garment workers union at a meeting next Tuesday night by the garment makers union is predicted by union leaders. It becomes effective next Monday, when the present scale expires, but all employees are to remain at work until the union has acted.

The principle is entirely without precedent in any industry in the United States but garment manufacturers here and their organized employees have formed the habit of making precedents.

Another feature of the award is a provision that regular employees during period of unemployment, receive two thirds of their weekly wage and be granted one week's vacation on full pay each year.

EFFICIENCY ESTABLISHED
Heretofore, in other agreements reached between employers and the union, the principle of "efficiency" usually fought bitterly by labor unions, has been accepted and the garment workers have adopted plans for increasing their product suggested by efficiency experts.

With the award goes a reduction in pay to the wage scale of July 1919, the new rates meaning reductions in the pay envelopes of from 9-1/2 to 13-1/2 percent.

Under the provisions of the award the business of garment manufacturing which is a seasonal occupation, is divided into two periods of six months each, and twenty weeks employment is guaranteed to workers in each six month period.

In order to assure the payment of the sums assured to non-employed workers the manufacturers are required to establish a fund out of which the sum guaranteed shall be paid. As an incentive to manufacturers to furnish regular employment it is provided that any money remaining in the fund shall be returned to the firm at the end of the season.

**DAWSON SENTENCED
TO TERM OF LIFE**

Cincinnati, O., April 26.—Will C. Dawson, who shot and killed his wife Alice Schneider Dawson, February 17 last, at their home in Norwood, after she had declared she was going to leave him, was convicted of second degree murder and given a life sentence in the penitentiary by a jury in Judge Darby's common pleas court last night. Two women members of the jury held out for first degree murder.

**GASOLINE PRICE
REDUCED 3 CENTS**

Chicago, April 26.—A reduction of three cents per gallon in the price of gasoline went into effect today in the territory of the Standard Oil Company of Indiana. The new price is 22 cents per gallon at filling stations and 20 cents at tank wagons.

NOTED WOMAN ARTIST SKETCHES HARDING AT WHITE HOUSE, FINDS HE'S BUSY MAN

Miss Neysa McMein and the sketch she made of President Harding at the White House.

The first portrait of President Harding since he entered the White House was made recently by Miss Neysa McMein, famous woman artist. She sketched the president as he went about his duties in the executive offices.

"Mr. Harding, I think, believed he was a good model because he remained in the same room," says Miss McMein. "He was awfully busy. He has a strong face with well defined characteristics."

TWO ARE KILLED AND SEVERAL HURT IN FIUME RIOTS

d'Annunzio's Party Wins Sunday Election By 1,200 Votes.

Milan, April 26.—Two persons were killed and several were wounded in disorders at Flume following Sunday's election when the anti-d'Annunzio party won by 1,300 votes, said a dispatch from that city today. The victors oppose annexation of Flume to Italy.

Fighting began when the Italian nationalists (supporters of the former D'Annunzio regime) invaded the government palace and seized and destroyed the boxes containing the ballots.

Last Monday the Carabinieri (Italian government troops) occupied public buildings which they still hold.

The result is regarded as condemnation of the former D'Annunzio provisional government and all the D'Annunzioists have resigned from the present administration.

Another feature of the award is a provision that regular employees during period of unemployment, receive two thirds of their weekly wage and be granted one week's vacation on full pay each year.

**SCORES TRIUMPH
FOR NO TOBACCO
CAUSE IN SENATE**

Columbus, Ohio, April 26.—With a few days of their appointments as lobbyists for the No Tobacco League of Ohio, Mrs. Viola D. Romans, of Columbus, and Mrs. C. L. Flatter of Xenia, last night scored a triumph in the Ohio Senate.

This consisted in having reported with recommendation for passage, the league's bill requiring all dealers in cigarettes to display in conspicuous places printed copies of the law prohibiting sales to minors. This bill was offered by Senator G. G. Pence, of Highland County.

Penalties are provided for failures to make this display.

This is called the opening of a "nibbling" campaign such as was pursued by the Anti-Saloon League against the liquor traffic. If the measure is made into law the league will seek additional restrictions upon the use of tobacco at the next session, this process to be pursued until the weed finally is eliminated from use.

At present dealers are required to display merely their license to sell cigarettes.

EXPECT DEATH OF AUTO PASSENGER

Columbus, O., April 26.—The death of Carl Borneman, 26, injured in a auto accident here Sunday morning when the machine driven by John B. Anawalt crashed into a wall of the Fourth Street viaduct, is momentarily expected.

Anawalt, who is being held at the city prison, may have to answer to three affidavits charging manslaughter.

**THINK CHANGE
FOR TRACTION
TIE UP REMOTE**

Akron, Canton and Massillon Trouble Comes To Head.

Akron, O., April 26.—Northern Ohio traction officials today expressed themselves as confident there will not be a tie up of the Akron, Canton and Massillon city cars or the interurban cars as a result of a wage disagreement.

Union men in Massillon began today to vote on the wage schedule submitted by the company calling for a 15 per cent cut in pay. Wednesday the men are scheduled to vote Thursday. The vote of the interurban men will be cast Friday at midnight. In event of a rejection of the wage schedule, efforts will be made to arrange for another conference with N. O. T. officials.

The result is regarded as condemnation of the former D'Annunzio provisional government and all the D'Annunzioists have resigned from the present administration.

Another feature of the award is a provision that regular employees during period of unemployment, receive two thirds of their weekly wage and be granted one week's vacation on full pay each year.

**JUDGE P. F. SWING
DIES IN CINCINNATI
LATE MONDAY NIGHT**

Judge Peter F. Swing, former judge of the circuit court at Cincinnati, and father of Mrs. Charles L. Darlington of this city, died at a Cincinnati hospital at 11 o'clock Monday night. He was stricken with paralysis two weeks ago.

Judge Swing was born in Clermont county, March 15, 1845. He was elected judge of the circuit court, which is now known as the court of appeals for the first district of Ohio in 1884. He served on that bench from February 1885 to February 1915, when he retired to his home at Milford, where he resided until the time of his illness.

During the Civil War, Judge Swing enlisted in the Ninth Ohio Volunteer infantry, and served in the field with General Grant and General Sherman. He leaves his wife, three sons and three daughters.

Judge Swing's daughter, Mrs. Lillian S. Fisher of New York, is said to have been the first, if not the only white woman, to have lived on the island of Yap, now the cause of a serious international dispute.

France, it is learned, is prepared to occupy the German coal mines in the Ruhr district upon an hour's notice in the event that the German reparations proposals are deemed unacceptable.

**BANK MESSENGERS
ROBBED BY THUGS**

Jersey City, N. J., April 26.—Armed bandits held up two bank messengers at Union Hill, N. J., today and took a bag containing cash and checks amounting to \$5,248. About \$5,000 was cash. The messengers, William Tierman and W. F. Wolf, are employed by the Hudson Trust Company, West Hoboken, and were leaving a building when attacked. The bandits escaped in an automobile.

**NEW FIRE WHISTLE
UPSETS THE COWS**

Tilton, N. H., April 26.—Tilton's new fire whistle which gives forth a sound that is a good imitation of that made by a distressed calf got to go. Every time the whistle blows all the cows in Tilton, Canterbury and adjacent towns, begin to gallop around in search of a presumably suffering calf. In many cases their gestures have begun to suffer with a resultant loss of milk.

Bucyrus, April 25.—Plans for pooling wool shipments again this year are expected to be laid at the annual meeting of the Crawford County Wool Growers Association, to be held on April 30.

FRANCE WILL BEGIN OCCUPATION OF RUHR DISTRICT DESPITE PLANS

Washington Receives Plans; England Ready to Consider

Belief Expressed That New Terms Warrant Consideration.

London, April 26.—Belief was expressed in foreign office circles today that the largest German indemnity proposals, which were sent from Berlin to Washington, are sufficiently acceptable to warrant the fullest consideration when the inter allied supreme council meets in this city Saturday.

This belief was apparently based upon a brief summary of indemnity note received in London from Berlin. How the summary came and its detailed nature were not revealed.

It is understood that the German communication is lengthy and considerable time is necessary for its deciding by the departmental experts.

Washington, April 26.—While state department officials maintained silence today concerning the German note on reparations, it was learned that the communication came during the night and that its contents probably will be the chief subject discussed by President Harding and his cabinet when they meet later in the day.

It is understood that the German communication is lengthy and considerable time is necessary for its deciding by the departmental experts.

French Adamant In Refusal To Accept Promises.

DISCUSS DETAILS

Great Britain Will Support Action Of French Leaders.

Paris, April 26.—France will begin occupation of the Ruhr district of Germany on or immediately after May 1, irrespective of the new German indemnity proposals unless Germany actually begins payment of the 12,000,000,000 gold marks alleged due at present under the terms of the treaty of Versailles, it was learned from a high source this afternoon.

France backed up by the reparations commission, contends that Germany owes the difference between eight billion and twenty billion gold marks under article 235 of the treaty of Versailles. This article specified that Germany must pay 20,000,000,000 gold marks indemnity in gold or goods by May 1, 1921.

Germany claims she has paid the full amount. The reparations commission declares that only 8,000,000,000 gold marks have been paid.

France demanded that 1,000,000,000 gold marks of this sum be paid by March 23, but Germany failed to do so.

The foreign office holds that the payment of this sum due by May 1, is distinct from the indemnity sum covered by the proposals sent by Berlin to Washington yesterday.

**MANY DELEGATES
ATTEND W. C. T. U.
INSTITUTE MAY 3**

Delegates from the adjoining counties are expected to attend the annual "Spring Institute," that is to be conducted by the Greene County W. C. T. U., at Bowersville, on Tuesday, May 3, at the M. E. Church of that village.

Work that is being carried on by the organization will be discussed at the meeting, and every department and phase of activity will be brought up at the institute.

The meeting will open at nine o'clock, Tuesday morning, with the report of the State convention recently held at Akron, which will be given by the delegates that attended the convention.

The next number on the program will be a discussion of the "Million Membership" drive by the local president. This drive is one that is concerning the national organization each of the branches putting forth their greatest effort to reach the quota.

"What Is Being Done In The Anti-Narcotic Department" will be taken by the County Superintendent, Mrs. W. O. Custis. The fight against narcotics also plays an important part in the plan of action of the organization, this county being one of the leaders in the action.

"The Outlook in Greene County" by the County vice-president, Mrs. Mattie Smith, will be another number on the program of the Institute. "Legislature and Where We Are" by the County President, Mrs. Carrie Flatter, will be one of the most important numbers on the program. Mrs. Flatter, has recently been announced as lobbyist before the general assembly in the interest of the passage of the Fence Bill, which requires tobacco dealers to display in their places of business copies of the State law regarding sales of cigarettes to minors.

The balance of the program which will include both the morning and afternoon sessions, will be devoted to an address upon "Child Welfare" by Mrs. A. C. Cartwright, of the state department of Public Health and an address upon "Right Living" by the world-secretary of the Prohibition National Guard, Miss Mary Irvin of Cedarville. The last number will be an address upon "Vacation Plans" by Professor Austin Black of the Xenia public schools.

A "Matron's Contest" of the members will be held at the evening session. The contest is of an oratorical and mental nature and will take up the balance of the program of the Institute session.

**CARPET CLEANING
COMPANY OPENED**

The Xenia Carpet Cleaning Company is the name of a new concern that has entered the ranks of Xenia's industries.

The firm was recently formed by R. E. Holmes, East End business man, and Carl Scott, who have purchased the latest design power machinery and have opened up for business in the basement of the Washington Hospital Annex.

The company makes a specialty of cleaning carpets and rugs by new methods. A high powered vacuum cleaner on wheels is operated as a dust remover, and the company also use a Hamlet Beach carpet washer, the first of these machines to be used here. The electrically operated carpet washer, is hardly larger or less easily handled than a carpet sweeper yet it does many operations in one. The carpet washer is the only one of its kind on the market.

**THE NEW
BUICK
IS A REAL 1921 MODEL**

The Buick which you buy today is a real 1921 Model. It embraces not only the basic engineering which has made Buick famous, but all the improvements, developments and refinements which the most thorough and exacting tests up to this time have proven worth while.

Changing the color of the paint on a 1920 Model does not make it a 1921 Model, nor does putting a lot of "gim-cracks" on the dash have that result. It must go deeper than that.

We learn improved methods of carburation, of oiling; we learn that certain steels are better for certain parts of the car, than which have been in general use. We find methods of improving the electrical equipment and so on down the line.

So when you buy a 1921 Buick you get not only all the features which have made of it a world-famous car, but you get an up-to-the-minute model, one of the very few obtainable.

CAR OWNERS—Now is the time to have your car gone over and put in shape. Our Repair Department will give you the best service; only the best Mechanics employed, and with our labor charges reduced to you, you will save money by bringing your car to us for your repairs and supplies.

Our Top Department will repair your top or curtains, tell you what cost will be before we start; also our Tire Department will repair your casings and tubes while you get other work done.

It will pay you to see us for prices on tires, oils and accessories, as we have pre-war prices. No one lower on quality goods.

SPEAKER OF HOUSE IN PENNSYLVANIA DEPOSED TUESDAY

Harrisburg, Pa., April 26.—Robert S. Spangler, of York, was deposed as speaker of the house of representatives today and Rep. Samuel A. Whitaker was elected to the vacancy and took the oath of office within 20 minutes after the house had been recalled to order from its recess taken early today. Whitaker was elected by a vote of 211 to 1 for Spangler.

The action today followed the most strenuous session of the house in the history of Pennsylvania. Anti-administration forces had held big bills in committee last night in order to kill them. Near midnight Speaker Spangler adjourned the house and immediately those remaining organized a rump session, passed administration bills on first reading and adjourned. A few minutes later the house resumed under the guise of a Tuesday session and passed the bills on second reading and adjourned until 10 o'clock today. The regular session last night had been adjourned until 11 o'clock today. During the hour of rump session today Speaker Spangler was ousted for the rest of the session.

WHAT TIME SHALL I SERVE DINNER, QUESTION ASKED

Xenia restaurant keepers do not know when to serve their meals, was a complaint heard Tuesday.

People from Dayton, Cincinnati, Columbus and other places where daylight saving is effective, want to get their lunch at 10:30 and their dinner at 4:30 or 5 o'clock.

Their watches are an hour faster than Xenia time and having been up an hour earlier, they get hungry sooner. But this is only a part of the confusion in the midst of which Xenia is torn these days, with its time an hour behind that of other cities in this section. So, at least, is the opinion expressed here.

People coming to Xenia on the street cars from Dayton get here in "nothing flat," while they even gain a half hour or so, if they drive their own machines. On leaving Xenia the tables are reversed however and on the street cars it is a two hour trip to Dayton.

Theater goers who expected to get in Dayton in time for a performance, have to leave at six o'clock. People working in Dayton, who live here, and they are many, have to get up extremely early in the morning, and if they want to get their full sleep, they have to go to bed before other people here do at night. People working here who live in Dayton, experience similar difficulties.

One Xenia man, who makes his home in Dayton, but who works here, has no difficulty in getting here to go to work but if he has to work in the evening, has trouble in arriving at his home in Dayton before midnight.

These are but a few of the times causing but in case this city time is causing, but in case this city does not take action, and so far it has not done so, the confusion will have to be put up with all summer.

Seventeen separate and distinct bequests are made in the original will and the bequest to the Jamestown Church, is carried in a codicil. The bequest gives the Church \$1,000 for the repair of the clock given by the testator's father, and for other uses deemed best by the church trustees.

INSTRUCTIONS ARE GIVEN BY CLEAN UP WORKERS IN DRIVE

Place the trash you wish hauled away on the street in front of your property, where it can be conveniently reached by the trucks and wagons.

This is the injunction of the Clean Up Committee.

No trash will be removed from alleys.

No garbage will be hauled away.

File the debris, tin cans and other waste matter from your property in an easily accessible spot on the street and it will be removed, directs the committee.

Final arrangements for the hauling have been left with former city engineer, J. P. Shumaker, who has taken charge of the plans for that work, Thursday and Friday.

For convenience in handling the work, the city has been divided into seven districts. To each district during the two days a truck or wagon will be assigned. Mr. Shumaker says that trucks will be assigned to the districts that will have the greatest amount of trash to be removed, and are the hardest to cover.

Trucks and wagons are expected to reach the city building at 6:30 Thursday morning when assignments for the day will be made. Complaints that trash piles have been missed in any street may be telephoned to police headquarters.

Mrs. C. A. Weaver, chairman of the transportation committee reported at a meeting of the Clean-Up committee Monday night at the Chamber of Commerce that the following merchants had donated the use of trucks or wagons for hauling trash for all or part of the time: The Stiles Company, ten hours hauling, The Walker Coal Company, two wagons, The Wilson Engineering and Contracting Company two trucks, The Loyd Contracting Company, two wagons; The Bedden Milling Company, two wagons; Cambria and Miller and The Fuller Ice Cream and Soda Water Company, the city truck.

Boys in charge of the preliminary inspection have completed their work and most of the reports will be in the hands of Dr. R. H. Grube, health commissioner today. A plat of his district accompanies the report of each boy, or team of boys, as the lads worked in pairs. A few of the reports show that the lads were received with courtesy by property owners. In such cases action will be taken if necessary by the health commissioner.

The boys will make another inspection and final report after the clean-up has been completed. Prizes will then be awarded by the prize committee consisting of Mrs. Thurman Early, Mrs. H. C. Sohn, Mrs. W. E. Eavey, and Mrs. H. R. Hawkins. The boys are enthusiastic over the work.

So far the finance committee in charge of Mrs. Walter L. Dean has over \$100 in donations for the Clean-Up fund, but several organizations are yet to be heard from.

Organizations that have voted contributions for the cause are asked to leave the money with Frank F. Keyes the treasurer, at the C. A. Weaver store.

It was reported at the meeting of the committees Monday night that people all over the city are co-operating in the Clean-up and that many piles of trash are already in the street.

Many other persons have helped more substantially by having their trash hauled away from their premises without waiting for the free service.

Rex W. T. Maxwell, father of Rev. James H. Maxwell, who was superannuated at Marion, Ohio, last fall, after fifty years of service has been recalled to the active work and given charge of the A. M. E. Church at Vernon, Ohio.

Mrs. Anna Gurley of Park street, was taken ill at church Sunday morning and had to be taken to her home. She is still very sick.

Caswell Summers, of East Second street, is thought to be some what improved.

The senior class of Home Economics of Willbrough of which four persons of this city are members, Madam Smith, Myrtle Carter, Thelma Hatchen and Fannie Porter motored through to Cincinnati Monday and visited the city schools. They returned Monday night.

Mr. and Mrs. Forest Cook in company with Mr. and Mrs. William Mimbly motored through to South Charleston Sunday and were the guests of Mr. and Mrs. Walter Mitchell.

J. T. Breckinridge of East Main street, is in a critical condition with no hope for his recovery.

Mrs. Franklin Mason and children of Piqua are the guests of her mother, Mrs. Nash of East Main street.

GERMANY AGREES TO "FIX UP" PART OF HER DEVASTATIONS IN FRANCE.

Germany deliberately destroyed the industrial region of France in order to put France out of the running as an industrial competitor. No other explanation accounts for such systematic destruction as that of the Lens coal mines, for example.

Now Germany has sent a note to the British Government reiterating her complete willingness to undertake the reconstruction of devastated France, as follows:

"Germany is absolutely persuaded that it is unavoidably necessary, for the purpose of restoring economic peace throughout the world, that the territories devastated through the war should be reconstructed and restored. Until this is done there will be danger that feelings of hate will continue to exist among the nations concerned."

"Germany therefore declares herself once more to be entirely willing to co-operate in this reconstruction with all the means and strength at her disposal, and to take into account in regard thereto, in every individual case, each wish of the Power concerned as far as is possible."

The note proceeds to enumerate in great detail the possibilities of reconstruction.

First, for Germany to take over specified localities, either as a State undertaking or by directing the work of a national colonizing and settlement associations;

Second, To undertake the work of clearing, afforestation, building and repairing brickworks and works for the production of chalk, plaster, cement and other necessities and the delivery of the necessary machinery and the building materials from Germany;

Third, To arrange that all such machinery and materials shall emanate from Germany;

Fourth, To start immediately plans to build at least 25,000 wooden houses in the devastated districts before the cold season begins.

Other clauses of the note specify the execution of deep and shallow excavating of all kinds, according to the plans and under the control of the French authorities, or otherwise according to the wishes of the Allied Governments.

The note is signed by Dr. Walter Simons, the German Foreign Minister. It requests the Allied Governments to initiate at the earliest possible moment the necessary discussions of details.

HELLO, HAVANA!

Only a few years ago coast-to-coast telephone parties were very popular. The fact that a person in New York City would carry on a conversation with another person in San Francisco was recognized as of vital importance to the country as a whole, and many organizations and associations made telephonic connection with remote cities a feature of their social programs. Recently another such party was held.

This time it was wireless telephoning. President Harding at Washington talked with President Menocal at Havana, Cuba, and both were connected with Catalina Island in the Pacific Ocean. This wide extension of the area of telephone communication is of value in many ways, facilitating, as it will, contact between governments, business concerns and private individuals.

There is another interesting feature of the most modern inventions such as wireless telegraphy and telephony and aviation. These new devices of civilization are not confined to the service of the civilized nations. They are penetrating into wilderness and desert and jungle where primitive races live and where the automobile and the steam railroad have been unable to go.

The wireless and the airplane wait for no slow development through the various steps of knowledge and civilization, but carry their achievements into regions and among peoples that have scarcely altered their mode of living for many hundreds of years. It is said that the nomads of the desert regard the airplane as a matter of course, and that inland China, devoid of every other device of modern science, is eager for the erection of wireless stations.

The civilized nations which are thus violently invading backward lands have a great responsibility toward the inhabitants. It is possible that we know as little about them—their traditions, their religions and their customs—as they do about us. The temptation to exploit them, to alter their mode of living and thinking to suit our standards, is great. Yet modern civilization will fail of achieving its noblest purposes if it uses scientific tools to destroy their ancient customs and ideals without giving them something truly better.

WHY MEN FAIL.

Men fail for various reasons, little and big.

Most men fail because they are lazy.

To be lazy means—to be late, to be slovenly, to be a poor economist of time, to shirk responsibility.

It means to say of anything that is clamoring to be done: "No, I'm not going to do that, because it isn't my work."

Laziness is at the back of most of the lesser reasons for failure. The minor causes are derivatives from that one great major cause.

It is so easy to dream in the sun and let the world go by; to dawdle and procrastinate, till one wakes up—to late.

Late and lazy are, in fact, first cousins.

If you are late, you waste other people's time as well as your own.

Lazy people have all the time there is, and yet they haven't time to be polite. They disdain the forms of ceremony that sweeten life.

They are grouchy, surly, gruff. It pains them to be pleasant, to say thanks and to smile.

Therefore they remain underlings.

There is plenty of room at the bottom for the boy who never has learned to be polite.

To be deferential is not to be servile. It is merely to be decently respectful.

The biggest men are the most unassuming and the most unassuming.

It is the insignificant people who fluff themselves up with a false and foolish pride and are forever orating from the flimsy and slippery platform of their own touchy dignity.

Failure is generally elective. It rests with the man himself to decide whether he cares enough for success to pay the price.

AN EDITORIAL ON BUYING

Until Gutenberg invented the printing press, books, paintings and other articles that stimulate our imagination and quicken our love for the beautiful were confined to royalty and the professional classes.

As the growth of intelligence kept pace with the progress of printing art the mass of people became ambitious and broke through the limitations of primitive conditions.

New books, paintings and those creations of the intellect which were once enjoyed by the privileged few are found in so many homes, we sometimes forget that it is to publicity, or advertising, that we owe this change in conditions.

Advertising is the evangel of beauty.

Just as sap, rising with the coming of Spring showers and warm sunlight, bursts the buds and makes a tree grow into its greatest beauty so advertising liberates from the narrowness of a monotonous life.

And yet it is doubtful if any of us give to the advertising that appears in the pages of this newspaper sufficient credit for the betterment in our lives that these advertisements are continually accomplishing.

To advertising largely we owe the habit of eating prepared food—soups, fruits, meats, fish, coffee, chocolate and cocoas, and a great number of other foods.

To advertising we owe also the knowledge of our modern systems of heating, cooking and refrigeration; the popularization of pictures, decorations and books, to say nothing of the motor car and the countless other comforts, conveniences and necessities of daily life.

Indeed, it would be difficult to say in what direction our lives have not been influenced and improved by advertising.

If you want to know yourself,

NUGGETS OF KNOWLEDGE

It doesn't take an X-ray to see the bones in a crapshtooter's hand.

German shells that fell in France destroyed 600,000 houses and 13,365 factories.

Oregon has an area of 96,000 square miles. Reverse the figures (69,000) for Washington's area.

Texas with an area of 265,780 square miles (France has only 204,091 without Alsace-Lorraine) compares majestically with Rhode Island's 1,250 square miles.

Is It Yours?

This is the Birthday of MARIE DE MEDICI April 26, 1573.

Daughter of one of the most amazing families known in history, queen of the kingdom of France, then exile and wanderer—such briefly, is the story of Marie de Medici.

She was born in Florence, the city of Northern Italy where the marvelous Medici family rose from nothing to become a supreme power, to give the world kings, queens, financiers and popes. She was brought up in the lovely Pitti Palace in Florence and given an excellent education for her period.

Henry the Fourth of France, owed the Medici family a great deal of money. Possibly with the idea of cancelling the enormous debt, he offered himself as husband to Marie. Unfortunately he already had a wife, but he managed to dispose of her successfully, though the marriage with the Medici had to be delayed until Marie was 27. Marie went to Paris as queen. She had some very charming children—one became King of Spain; a daughter Queen of England; another son became King of France.

After her husband's death, she suddenly developed a great deal of political ambition. She was helped in this by the great Cardinal Richelieu. But she quarreled with her son who at 16 sent her into exile. Then she was foolish enough to quarrel with Richelieu, who put himself on the side of the king, and whom he never left until his death.

But plots and counterplots were part of the Medici temperament. They liked it. Marie plotted against her son until her death, never with any very great results.

The advantage to you is undeniable. In fact, during the present period of readjustment it is a duty you owe your family to read advertising closely and constantly.

Tuesday, C. C. Coy and his wife, Adaline Coy, of Trebein, celebrated their fifty-fifth wedding anniversary.

They were married in this city, April 26, 1866, and in living more than a half-century of unbroken and happy wedded life, have established a record and set an example for a present generation to follow.

Mr. Coy, who is 78 years of age, and still well and hearty, tells the story in this way: "On April 26, 1866, fifty-five years ago, I drove to Alpha, got my best girl and drove to Xenia to Rev. Shafer's residence.

"He took us in and in his sermon put the collars, harness and bridles on us and pronounced us man and wife. We went home and went to work in our new harness, put a tension in the traces and have kept them taut ever since. We have eight children, ten grand children, but the best of them all, six great-grand children, and every little rascal is a boy."

Turning to the good wife, who had

shared his joys and sorrows since Civil War days, Mr. Coy said: "Ma, how

about the next 55 years?" "I will go

with you one if the traces don't break," said

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow-complexion pallid—tongue coated—appetite poor you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards, after 17 years of study.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. Take one or two nightly and note the pleasing results. Millions of boxes are sold annually at 15¢ and 30¢.

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow-complexion pallid—tongue coated—appetite poor you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards, after 17 years of study.

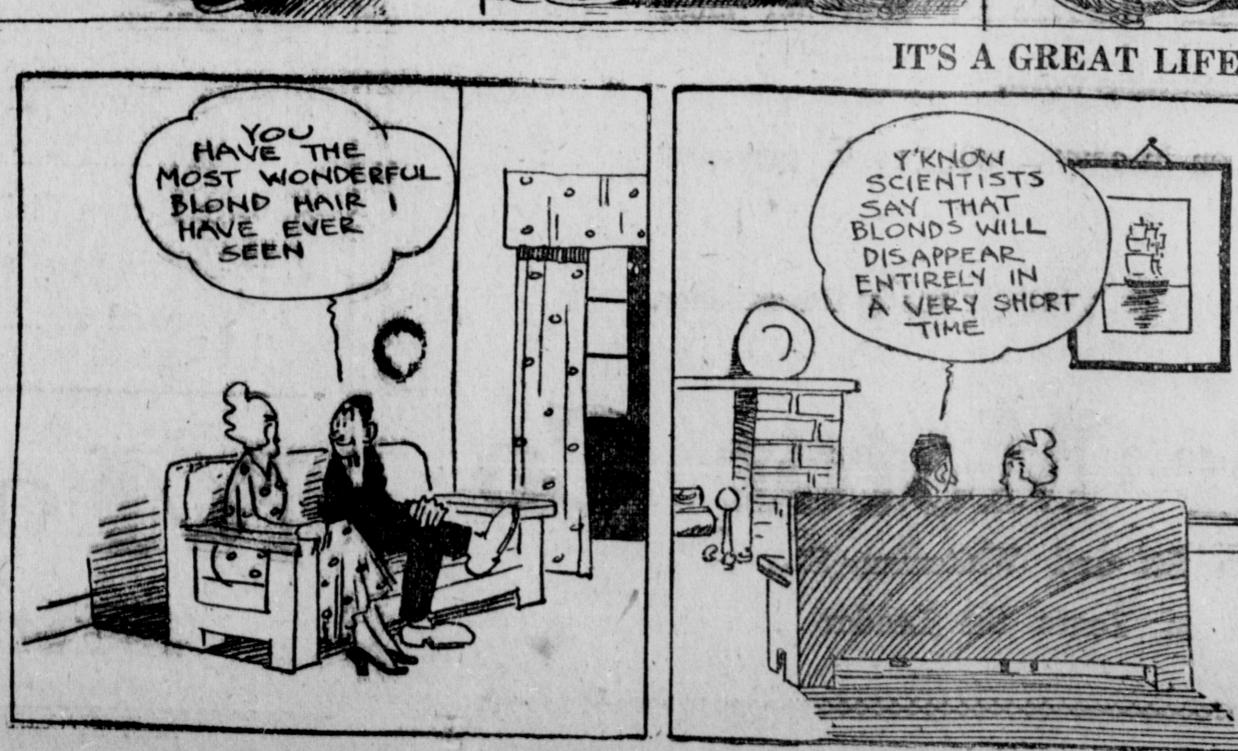

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil.

You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. Take one or two nightly and note the pleasing results. Millions of boxes are sold annually at 15¢ and 30¢.

WELLESLEY CLUB OFFERS PROGRAM TO XENIA PEOPLE

An appreciative audience of more than a hundred people gathered at the home of Mrs. Mildred Prugh on Saturday evening to take advantage of the opportunity offered by the Xenia Wellesley Club to hear Mr. Ridgely Torrence and Miss Emma Davidson, in a delightful program of their own compositions.

It was the first occasion on which Mr. Torrence, who has frequently given readings in other places, has read to a public audience in Xenia, and he spoke with pleasure of being able to present to meet his Xenia friends.

He read two one-act plays, "The Rider of Dreams," and "Granny Mamie," two poems to children, "To Africa," and "Jean, Singing," "Three O'Clock," a descriptive poem of New York between midnight and dawn, "The Apples," a symbolic poem, and a mystic religious poem, "I Will Send the Comforter."

Miss Davidson sang two groups of songs for which she has written the music, "Parted," a boat song, and "Hymn," the words for both pieces having been written by Paul Lawrence Dunbar.

"A Seal Lullaby," from one of Kipling's Jungle Books, and "An Old Poet, To His Love," with the words by Max Bodenheim, composed the second group.

Mrs. Alice Ruthrauff did most artistic work in the capacity of accompanist to Miss Davidson, with the exception of an encore "Lilacs," for which Miss Davidson played her own accompaniment.

An informal reception followed the program at which the resident members of the Xenia Wellesley Club, Miss Mildred Prugh, Mrs. P. H. Flynn, Mrs. J. H. Webster, Miss Bertha Trebein, and Miss Jane Santymyer acted as hostesses with Mrs. Prugh, who had offered her home to the Wellesley Club for the occasion. The Misses Elizabeth Dodd, Alicia Monroe, Josephine Wolf, Margaret Webster, Rosanna Webster and Margaret Little, assisted the hostesses in serving a light refreshment course of Wellesley fudge cake and punch to the guests.

In the opinion of the Wellesley Club Xenia holds a rather unique place among towns in having produced not only men recognized in the professions but men and women who have contributed worthily to letters, art and music, to science and to other lines of scholarship.

Mr. Torrence, Miss Davidson and Mrs. Ruthrauff generously donated their services in the interest of the Wellesley Semi-Centennial Fund, and the Club expresses appreciation to them and to the friends whose response contributed to the success of their attempt to bring Xenia artists before a Xenia public.

SHANNON STOCK COMPANY TO PLAY

Miss Hazel Shannon, H. C. "Red" Soubeir, and others of the famous Shannon theater family are coming "home" again on Wednesday May 4, when they are booked under arrangements with the Standard Amusement Company, to appear at the Opera House here.

Both Miss Shannon and Mr. Soubeir left the company for a time, and tried their talents in separate roles of endeavor, but they are now back with the company, and help form one of the best casts the little stock company has ever boasted. Of course, the effervescent Harry Shannon, Jr., is still with the company, and the cast contains many other familiar names such as Jessie Collier, Paul Jackson, Lotta Maye, Sanna Bailey, J. H. Prescott, Rex Keith Benware, Adelaide Lorenz and Al. W. Emerson.

The Company still carries its big band and orchestra. It will play here only one night, presenting "That Girl Paizy," a delightful stage story, in which Miss Hazel Shannon has the titular role.

PLANS TO ATTEND MEETING OF OHIO STATE FOUNDRYMEN

W. H. Huston, president and general manager of the Xenia Foundry and Machine Company, expects to attend the sessions of the Ohio State Foundrymen's Association, to be held at the Miami Hotel, Dayton, May 3.

One hundred and fifty foundry men from all over the state are expected to meet in Dayton at that time. The convention will open at 10:30 o'clock with reports of the past year. The discussion of subjects and problems that interest the foundry men will occupy the greater part of the morning. Brass, iron, steel and aluminum founders will be presented.

A. H. Kramer of the Advance Foundry Company, Dayton, and George Huffman of the Davis Sewing Machine Company, Dayton, are making plans for the visitors. Among speakers will be Sam Powell Jr., secretary of the association, who will talk on "Labor." Ernest F. Du Brull, general manager of the Machine Tool Builders Association, who will discuss "Trade Associations," and E. T. Runge, president of the E. T. Runge Cost Company, Toledo, who will talk on "Costs." A general discussion will follow these talks.

BIGAMY CHARGED AGAINST MAN IN GREENE COUNTY

Bigamy is charged against Oscar Parker, by Prosecuting Attorney J. Kenneth Williamson, in a case bound over to the Court of Common Pleas from the court of Magistrate J. E. Jones, Monday.

It is charged in the affidavit that Parker married Margaret Slusher, in Indianapolis, Ind., on September 10, 1918, and that he married Emma Leona Toms, of Fairfield, March 17, 1921. He was arrested by the sheriff, April 22.

In binding him over to Common Pleas Court, Magistrate Jones fixed Parker's bond at \$700. This is the first case of bigamy in local courts for some time.

FINED FOR DRIVING AUTO. INTOXICATED

Alfred Brannan, 24, of Wilmington, was fined \$50 and costs by Magistrate J. E. Jones, Monday on a charge of driving an automobile while intoxicated, and George Brannon, 29, John Brannan, Sr., John Brannan, Jr., 31, and Brice Wertz, 25, all of Wilmington, who accompanied him, were each fined \$5 and costs.

The men were arrested by the sheriff.

TESTED RECIPES.

Bread Pudding—Two cups milk, one cup bread crumbs, one-eighth teaspoon salt, two eggs, three tablespoons sugar, two tablespoons of powdered sugar, one-half cup jelly. Heat the milk, place the bread crumbs in a baking dish and add the milk. Leave in a warm place until the bread has absorbed the milk. Stir and mash with a spoon and add the salt. Separate eggs and beat the yolks and add the sugar to them. Add the sugar and eggs to the bread and milk. Bake in a moderate oven. Beat the whites very stiff and fold on top of pudding, pile the meringue lightly on top. Brown in oven, cool slightly before serving.

Thousand Island Salad Dressing—One cup mayonnaise, one-half cup olive oil, one tablespoon tarragon vinegar, one-quarter teaspoon paprika, one tablespoon chopped chives, one tablespoon chopped pimento, one tablespoon chopped green pepper, one cooked egg yolk, sifted, one tablespoon walnut catsup, one-third cup chili sauce.

Mix all together.

Veal Pot Roast—Two pounds shoulder veal, one-quarter pound salt pork, one bay leaf, one onion, salt, pepper. Put salt pork in kettle, when fried out add onion sliced and brown it. Put in veal, brown on all sides, add bay leaf, pepper and a little salt and one cup hot water. Keep just below boiling for two hours, adding hot water occasionally. Remove from kettle, pour fat off from liquor, add more water if necessary and make a gravy.

Potato Salad—A nourishing, substantial salad which prepared this way is enough work to pay for the extra work it takes. Boil the desired number of potatoes with the skins on. When done peel and slice while hot into a bowl, putting between layers of potato sliced onion, salt, pepper, a little

ESCAPES INJURY AS TRUCK IS HIT

W. R. Quinn, of Dayton, driver for the Kay and Ess Paint Company, escaped miraculously without injury Monday afternoon when his truck was struck by a Pennsylvania passenger train No. 92, at the Bainbridge street crossing, in Dayton.

The train was in charge of Conductor Ed. Arnold and Engineer Michael Bresnahan, both of this city. Quinn said he did not see the approaching train until on the track. The entire end of his truck was demolished, and the side boards stripped from the passenger coach.

AT THE Revolt of Vera Sanderson

BY JANE PHELPS.

A TILT OVER A PAIR OF SLIPPERS CHAPTER 25.

If 19 and 20 could have the experience of 90, how different we would act! But youth is impatient of restraint, unforgiving, cruel often.

Margaret Dalton's jealousy of her brother was perhaps only natural. She had been his sole care, dependent upon him for many, if not most of her pleasures. When he married she felt that she might have to be thrust out of his life, so assumed the defensive before she waited to find out if it were necessary to antagonize me, her brother's wife.

Mrs. Hunter had said that I was "prettier than Mrs. De Lisle, but only knew how to make the most of myself." The last part of her remark had impressed me. I knew I was pretty—every girl who is, realizes it. And I could look much prettier if it were not that Margaret meddled with what I should wear, chose my clothes.

I would take even more pains with my toilet now, but I could do nothing about clothes—not until I could persuade Keith to allow me to select them myself, or he would consent to go with me instead of sending Margaret.

After Mrs. Hunter's call I tried doing my hair all sorts of ways, only to be told by Margaret that it was silly to change my appearance—always said at table, when Keith has there to hear, and finally he also agreed with her and rather sternly told me to stop it and wear my hair in a knot in my neck—the way Margaret had declared most becoming, and which I knew made me look old-fashioned and countrified compared to the girls of my age who wore elaborate coiffures.

She tugged and pulled until I feared my slippers would be ruined, but still they would not go over her heel. She threw them aside in disgust.

"I know you bought them too

small! I should have been with you," she declared as she told the maid to bring her black satin slippers.

In a spirit of bravado I slipped off my pumps and put on the slippers. They went on quite easily as she

could see. They had been one of the few things I had bought by myself, and I had been most particular that they should fit well.

"See, they are plenty large!" I said, holding my dress up a bit as I walked around the room.

"Your foot looks pinched and ugly in them. I will go with you next time you wish to buy shoes. You know nothing about shopping," Margaret fairly snapped at me she was so angry.

I said nothing, realizing I had been foolish to attract her attention to my feet in the mood she was in. After she left I asked Keith if he didn't think they fitted well and were pretty.

"Perhaps they fit, and they surely are pretty. But after this take Margaret with you when you buy shoes. Nothing spoils a foot like ill-fitting shoes."

"But she will want me to buy shoes too large for me, just because her foot is larger than mine!"

"For heaven's sake, Vera, don't object to everything I ask you to do." I made no reply. I was hurt at his impatience. Now I realize that it wasn't easy for Keith, this constant bickering of the two women with whom he spent his time. His persistent endeavors to keep peace and have things run smoothly must have been terribly wearing.

But at the time I never thought of such a thing as being sorry for him—I was too busy being sorry for myself.

Tomorrow—Vera Distrusts

Mrs. De Lisle.

Take It In Time!

DO you know that by far the larger number of the common ailments of women are not surgical ones; that is they are not caused by any serious displacement, tumor, growth, or other marked change?

DO you know that these common ailments produce symptoms that are very much like those caused by the more serious surgical conditions?

DO you know that many women and young girls suffer needlessly from such ailments? More than that, they endanger their health by allowing their ailments to continue and develop into something serious.

If treated early, that is, within a reasonable time after the first warning symptoms appear, serious conditions may often be averted. Therefore, at the first appearance of such symptoms as periodic pains, irregularities, irritability and nervousness, Lydia E. Pinkham's Vegetable Compound should be taken. It is prepared with accuracy and cleanliness from medicinal plants. It contains no narcotics nor poisonous drugs, and can be taken with perfect safety.

The Vegetable Compound acts on the conditions which bring about these symptoms in a gentle and efficient manner. The persistent use of it shows itself in the disappearance, one after another, of the disagreeable symptoms. In a word, Lydia E. Pinkham's Vegetable Compound acts as a natural restorative, relieving the present distress and preventing more serious trouble.

Why not give a fair trial to this medicine?
